

Come Right In

Open the door and come right in, this is the place to have fun in
Sitting or standing we can stay, there are games that we can play

Clapping our hands or making a stand, tapping our feet along with the
beat
Putting our thumbs up, I can't get enough, Turning around, imagine doing
it upside down

Open the door and come right in, this is the place to have fun in
Sitting or standing we can stay, there are games that we can play

Making a face, marching in place, Laughing out loud like one of the crowd
Stepping to the side, make it a glide, standing up straight, it's no wonder
we're feeling great

Open the door and come right in, this is the place to have fun in
Now you're getting with the jive, give your friends and big high five...

Sitting right down, making a crown, wiggling our toes while we're down
low
Standing once more with our feet on the floor, nodding our heads 'til it's
time to break some bread

We love this place, a friendly face, come right in and play

Open the door and come right in, this is the place to have fun in
Sitting or standing we can stay, there are games that we can play

Is there a better day than today, I don't think so, hey, hey, hey
Now we're ready, set and steady, This we know, it's the time to go, go, go

Open the door and come right in, Open the door and come right in

Open the door and come right in, this is the place to have fun in
Now you're getting with the jive, give your friends a big high five...

Just Suppose

Just suppose we juxtapose, Juxtapose we just suppose
Next to you I like to pose, nose to nose and toes to toes

Standing in a line is so neat & organized you know
Everybody has their place, face to back or face to face

Just suppose we juxtapose, Juxtapose we just suppose
Next to you I like to pose, nose to nose and toes to toes

Close together we may go walking, marching heel to toe
Check the distance front to back, keep it straight and stay on
track

Just suppose we juxtapose, Juxtapose we just suppose
Next to you I like to pose, nose to nose and toes to toes

Then we scatter like the leaves blowing off the autumn trees
Sweep around and come about, side by side we stand & shout

We stand together, no matter the weather
Birds of a feather, friends

You're someone I'd like to know, face to face & toe to toe
Shake my hand and we can go as our friendship starts to grow

Just suppose we juxtapose, Juxtapose we just suppose
Next to you I like to pose, nose to nose and toes to toes

We stand together, no matter the weather
Birds of a feather, friends

Just suppose we juxtapose, friends, Next to you I like to pose,
friends...

Every One of Us Counts

Cero, Uno, Dos, Tres, I'm just keeping my place
Tahi, Rua, Toru, I am counting on you (and you)
Un, deux, trois, quatre, cinc, counting fish in the tank
Zero, one two, three, four, we all fall on the floor

That's fun, now we will get up one by one
The sun is out, let's go out and count
The birds in trees singing with the breeze
Then whisper & shout, every one of us counts

Cero, Uno, Dos, Tres, I'm just keeping my place
Tahi, Rua, Toru, I am counting on you (and you)
Un, deux, trois, quatre, cinc, counting fish in the tank
Zero, one two, three, four, we all fall on the floor

That's fun, now we will get up one by one
And tap our feet as we listen to the beat
Then clap our hands to the music of the band
Then whisper & shout, every one of us counts
Cero, Uno, Dos, Tres, I'm just keeping my place
Tahi, Rua, Toru, I am counting on you (and you)
Un, deux, trois, quatre, cinc, counting fish in the tank
Zero, one two, three, four, we all fall on the floor

That's fun, now we will get up one by one
Then stand up straight, hurry, hurry, don't be late
Now turn around and nod your head up & down
Then whisper & shout, every one of us counts
Cero, Uno, Dos, Tres, I'm just keeping my place
Tahi, Rua, Toru, I am counting on you (and you)
Un, deux, trois, quatre, cinc, counting fish in the tank
Zero, one two, three, four, we all fall on the floor

That's fun, now we will get up one by one
So turn again and now you can count to ten
one, two, three, four, five, six, seven, eight, nine, ten
Then whisper & shout, every one of us counts

Then whisper & shout, every one of us counts, everyone of us counts...

Countdown

Ten, nine, eight, seven, six, five, four, three, two, one, zero, blastoff
Ten, nine, eight, seven, six, five, four, three, two, one, zero, blastoff

Rocket ships fly into space, counting down to the race
Adding up or counting down, there are numbers all around
One by one we see them pass hit the brakes or on the gas
Deeper the ocean how high the moon, down with subs up with balloons

Ten, nine, eight, seven, six, five, four, three, two, one, zero, blastoff
Ten, nine, eight, seven, six, five, four, three, two, one, zero, blastoff

One, two, three, four, three, two, one, counting down is lots of fun
Ready, set, go, time to run, hear them trip right off your tongue
Count with fingers and with toes, be surprised at what you know
Disappearing one by one, easy with fingers, hard with toes

Ten, nine, eight, seven, six, five, four, three, two, one, zero, blastoff
Ten, nine, eight, seven, six, five, four, three, two, one, zero, blastoff

How far up can you go, it's so much fun to climb you know
But when you're up there so high, remember you must come down
sometime
Counting backward, counting backward
Now's the time to take the test, take a breath and have a rest
At the start take off fast, say the numbers in a flash

Ten, nine, eight, seven, six, five, four, three, two, one, zero, blastoff
Ten, nine, eight, seven, six, five, four, three, two, one, zero, blastoff

Counting down, then taking off to barriers you've never been through
Hear the rushing of the sound as you're going through your countdown

Ten, nine, eight, seven, six, five, four, three, two, one, zero, blastoff
Ten, nine, eight, seven, six, five, four, three, two, one, zero, blastoff

How far up can you go, it's so much fun to climb you know
But when you're up there so high, remember you must come down
sometime, Counting backward, counting backward....

Do like I Do

Do like I do like I do like I do, you can follow me or I can follow you
Do like I do like I do like I do, you can see me and I can see you

I can see a seagull sitting over there, we can try to catch it running in
pairs
Making funny faces from behind a tree, climb up a ladder & slide like
me

Do like I do like I do like I do, you can follow me or I can follow you
Do like I do like I do like I do, you can see me and I can see you

You take a shovel and I take a rake, let's just see what we can make
I'll get a bucket and you get a pan, now we can fill 'em up, fill 'em up
with sand

Do like I do like I do like I do, you can follow me or I can follow you
Do like I do like I do like I do, you can see me and I can see you

We can share with one another, just like we were sisters and brothers
You have this one, I'll have that or we can trade and share like that

Do like I do like I do like I do, you can follow me or I can follow you
Do like I do like I do like I do, you can see me and I can see you

Talking, listening, so that we aren't missing
Sharing, caring, and showing a little daring

I am singing it, you can too, you can follow me or I can follow you
Then together we can learn something new, you can show me and I can
show you

Do like I do like I do like I do, you can follow me or I can follow you
Do like I do like I do like I do, you can see me and I can see you

You can follow me or I can follow you

Do like I do like I do like I do, you can follow me or I can follow you
Do like I do like I do like I do, you can see me and I can see you

Do It Yourself

I wouldn't tell you to be happy or tell you to be glad
I wouldn't tell you to be witty or what's the point of being sad

'Cause you've got to do it, do it, do it yourself or you'll lose it every time
Do it, do it, do it yourself, you've got to make up your own mind

It's hardly a matter that you can deny
Don't you think it's time that you gave it a try
Go on and give it a try

Do it, do it, do it yourself or you'll lose it every time
Do it, do it, do it yourself and you'll be on the winning side

Do it, do it, do it yourself or you'll lose it every time
Do it, do it, do it yourself, you've got to make up your own mind

The Question Song

Who, what, when, where, why and how, You can ask a question now
Who, what, when, where, why and how, The quest is for the answer
now

Who did it, what's in it, When will we find out?

Who, what, when, where, why and how, You can ask a question now
Who, what, when, where, why and how, The quest is for the answer
now

Where is it, why did it, How can we do that?

Who, what, when, where, why and how, You can ask a question now
Who, what, when, where, why and how, The quest is for the answer
now

Who said, what is it, When will we get there?

Who, what, when, where, why and how, You can ask a question now
Who, what, when, where, why and how, The quest is for the answer
now

Where were we, why should we, How are you today?

Who, what, when, where, why and how, You can ask a question now
Who, what, when, where, why and how, The quest is for the answer
now...

Jolly Time

Let's all have a jolly time humming songs 'til the moon shines
mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm
Let's all have a jolly time while we stomp our feet in time
Let's all have a jolly time while we make a squiggly line

Singing happy songs, there is nothing wrong
Listening to the sounds that are all around
I can ask my friends what they'd like to do
It's more fun to share castles in the air
Let's all have a jolly time humming songs 'til the moon shines
mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm
Let's all have a jolly time while we stomp our feet in time
Let's all have a jolly time while we make a squiggly line

Playing games today while the skies are gray
When the sun come out we'll take a run about
Helping to clean up, I can't do enough
And you are very funny hopping like a bunny

Hopping, clopping, sometimes we're sopping
Meeting, greeting, washing before eating

Let's all have a jolly time humming songs 'til the moon shines
mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm
Let's all have a jolly time while we stomp our feet in time
Let's all have a jolly time while we make a squiggly line

Say hello and say goodbye, it's a good thing to try
We all feel very fine, let's do this again sometime
Let's all have a jolly time humming songs 'til the moon shines
mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm, mm
Let's all have a jolly time while we stomp our feet in time
Let's all have a jolly time while we make a squiggly line

Macaroni

There are lots of tasty treats that we like to eat
Cakes and pies and vegetables, say bon appetit
And there is the orange, the humble apple too
Then there is the pasta, say buon appetito

Macaroni, macaroni maca-maca-macaroni
Macaroni, macaroni (maca-maca-roni)

Hamburgers and hot dogs with pomme fritte or fries
Some people like fish with their chips a salad might be nicer then there's

Macaroni, macaroni maca-maca-macaroni
Macaroni, macaroni (maca-maca-roni)

Durum semolina, durum semolina

Macaroni, macaroni maca-maca-macaroni
Macaroni, macaroni maca-maca-roni

Now we're getting 'round to it, a pizza would be fine
But there's a little elbow pushing it to the side (the pasta)

Macaroni, macaroni maca-maca-macaroni
Macaroni, macaroni we love macaroni

Durum semolina, durum semolina

Macaroni, macaroni maca-maca-macaroni
Macaroni, we love macaroni...

Macaroni, macaroni we love maca-macaroni
Macaroni, maca-maca-macaroni

Macaroni, macaroni maca-maca-macaroni
Macaroni, macaroni maca-maca-roni

What Games Shall We Play Today

What games shall we play today, what words would we like to say
Here's where we like to stay when we have a game to play

Making & baking, raking & shaking, Walking & prancing, singing &
dancing

What games shall we play today, what words would we like to say
Here's where we like to stay when we have a game to play

Hiding & seeking, remember no peeking, Riding & gliding, swinging &
sliding

What games shall we play today, what words would we like to say
Here's where we like to stay when we have a game to play

Hustles & bustles, pictures & puzzles, maybe some nuzzles, we all like
cuddles

What games shall we play today, what words would we like to say
Here's where we like to stay when we have a game to play

The games that we play to have fun today, we can still play them
tomorrow

What games shall we play today, what words would we like to say
Here's where we like to stay when we have a game to play

Building a house on top of a mountain, making funny sounds while
we're on the playground

What games shall we play today, we can still play them tomorrow...

You Don't Have to Be Big

Puff, puff, puff, ding, ding, ding, don't have to be big for anything
Puff, puff, puff, ding, ding, ding, the little engine is a heroine

You don't have to be big to have a lot of heart
You don't have to be big, you can make a start
You don't have to be huge not to be a scrooge
You don't have to be big to do your part

Puff, puff, puff, ding, ding, ding, don't have to be big for anything
Puff, puff, puff, ding, ding, ding, the little engine is the heroine

We all feel fine when sharing yours & mine
We all feel fine when we take the time
To show others we care, it's really only fair
You don't have to be big to show you care

Puff, puff, puff, ding, ding, ding, don't have to be big for anything
Puff, puff, puff, ding, ding, ding, the little engine is the heroine

Your friend needs a hand while playing in the sand
That your friend needs a hand can make you feel grand
You don't have to be great, you can appreciate
You don't have to be big to be a mate

Puff, puff, puff, ding, ding, ding, don't have to be big for anything
Puff, puff, puff, ding, ding, ding, the little engine is the heroine

You don't have to be big to have a lot of heart
You don't have to be big, you can make a start
You don't have to be huge not to be a scrooge
You don't have to be big to do your part

Puff, puff, puff, ding, ding, ding, don't have to be big for anything
Puff, puff, puff, ding, ding, ding, the little engine is the heroine

You don't have to be big to do your part...

Comedy of Errors

We can laugh all night and day, We can laugh all night and day
We can laugh all night, we can laugh all night
We can laugh all night and day

We can laugh all night and day, We can laugh all night and day
We can laugh all night, we can laugh all night
We can laugh all night and day
