

Teamwork Album (M015) Words

Teamwork

Teamwork is what it takes to get the job done right
Teamwork is what you make when you share instead of fight

Teamwork will get you far when you're reaching for a star
Teamwork will get you there when you've got to get over the bar

Teamwork is the code when you want to spread the load
Teamwork is the thing when you feel a little alone

Teamwork, Teamwork, Teamwork, Teamwork

Let's work together and play forever
It's fun to labour when you do someone a favour

Teamwork is a bridge that we build hand in hand
Teamwork brings us close so we feel really grand

Teamwork makes you feel like you want to grin
Teamwork is the game when you want to win

Let's work together and play forever
It's fun to labour when you do someone a favour

Teamwork, Teamwork, Teamwork, Teamwork

Supposin'

Supposin' that I have a go again, supposin' I let go and make a friend
Supposin' I have chosen to do it then, when I do I just might start a trend

Supposin' that I have a go again, supposing' together we can make blend
Supposin' we make up our story then, and we will find it is a happy end

Looking in a Mirror

Looking in a mirror, seeing a reflection, Looking in a mirror, can't avoid detection
Looking in a mirror, making an expression, lots of happy faces seeing a reflection

I can see a very long way, In the mirror a long face today
And a smile, the mirror can say, who's the fairest in the land today

Looking in a mirror, seeing a reflection, Looking in a mirror, can't avoid detection
Looking in a mirror, making an expression, lots of happy faces seeing a reflection

I can see all over the place and I see someone's funny face
And over there where two friends embrace, When I blink vanish without a trace

Holding up my right hand, It looks like my left
Holding up my left hand (right!), Trying to understand it
Looking in a mirror is kind of front to back
Thinking of the opposite appears to be the knack

Looking in a mirror, seeing a reflection, lots of happy faces making some
expressions
See a mirror image, look at your reflection, seeing lots of angles in every direction

Holding up my right hand, It looks like my left
Holding up my left hand (right!), Trying to understand
Looking in a mirror is kind of front to back
Thinking of the opposite appears to be the knack

Looking in a mirror, seeing a reflection, Looking in a mirror, can't avoid detection
Looking in a mirror, making an expression, lots of happy faces seeing a reflection

Looking in a mirror, Looking in a mirror, Looking in a mirror, seeing a reflection

A Beautiful Thing

There once was a tree on the hill, it grew and it waved & instilled
The times we had under the tree are a memory, a memory

What we have here, What we have here, What we have here is a
beautiful thing

He tino ataahua, He tino ataahua, He tino ataahua enei mea
(he tin or art are hua en aye mea (sounds like pear))

Once we looked after the trees, the wind rustled leaves and we
breathed

The trees made the most of thin air, but we didn't care, we didn't care

What we have here, What we have here, What we have here is a
beautiful thing

He tino ataahua, He tino ataahua, He tino ataahua enei mea

On the hill there were trees all around, but we cut 'em down, we cut
'em down

If we learn from a loss we will find, that there's still time, there's still
time

What we have here, What we have here, What we have here is a
beautiful thing

He tino ataahua, He tino ataahua, He tino ataahua enei mea

A Beautiful Thing, He tino ataahua enei mea

Please & Thank You

Please & Thank You is the same, a rose by any other name
In any language would be as sweet and the words you should repeat

In Espanol, por favor, In Francais, s'il vous plait
In the Deutsch, bitte is please, it would pay to remember these

Please & Thank You is the same, a rose by any other name
In any language would be as sweet and the words you should repeat

When in France you say merci, danke you say in Germany
When in Spain it's gracias, Thank You is a phrase for us

To be polite will open doors for you
And see you right, what these magic words will do for you

Please & Thank You is the same, a rose by any other name

Solar Systems

Making pictures with the stars in the sky, out in space the planets spin & fly
Sun comes up as the earth spins around, planets orbit without making a
sound

Solar systems, stars and planets in 'em
Solar systems, Telescope long distance

Across the sky is the zodiac, imagine stars making pictures like that
Groups of stars make a constellation, look up high for your inspiration

High up in the sky there are lots of things to see
Craters on the moon, it looks like a ball of cheese
Orbiting around is what planets like to do
Just like the moon is doing around me & you

Solar systems, stars and planets in 'em
Solar systems, Telescope long distance

You could look through a telescope, makes you feel like you could float
And make discoveries on distant shores & boldly go where no one has gone
before

Solar systems, stars and planets in 'em
Solar systems, Telescope long distance

High up in the sky there are lots of things to see
Craters on the moon, it looks like a ball of cheese
Orbiting around is what planets like to do
Just like the moon is doing around me & you

Solar systems, stars and planets in 'em
Solar systems, solar systems, stars and planets in 'em
Solar systems, Solar systems

Jump Up & Down

Jump up & down, reach for the sky, jump up & down, it's worth a try
It feels just like you could fly, jump up & down, reach for the sky

When touching air it's only fair to imagine what it's like up there
When touching air it's only right to jump up high with all your might

Jump up & down, reach for the sky, jump up & down, it's worth a try
It feels just like you could fly, jump up & down, reach for the sky

When reaching up to touch the sky, wave your fingers, let them fly
When reaching up to touch the sky, imagine your fingers in a pie

Jump up & down, reach for the sky, jump up & down, it's worth a try
It feels just like you could fly, jump up & down, reach for the sky

Jump up & down, jump up & down,
jump up & down, jump up & down, just like you could fly

Why do you come down--gravity, why do I come down, silly me
Why do you come down--gravity, what goes up must come down you see

Jump up & down, reach for the sky, jump up & down, it's worth a try
It feels just like you could fly, jump up & down, reach for the sky

A little higher up you go, when you come down you should know
To bend your knees just like a bow, jump up & down, put on a show

Jump up & down, jump up & down,
jump up & down, jump up & down, put on a show

Jump up & down, reach for the sky, jump up & down, it's worth a try
It feels just like you could fly, jump up & down, reach for the sky

Jump up & down, jump up & down,
jump up & down, jump up & down, reach for the sky!

Concentration

Can you nod and can you can wink, this is something new, I think
You can trod in place and blink, all at the same time, I think

Concentration, words and listening link
Contemplation, another word for when you think
Concentration, your attention please
Standing ovation, give yourself a hand and squeeze

You can walk and you can talk, can you stare down like a hawk
Or look up to the sky and think, now I'm stretching out the kinks

Concentration, words and listening link
Contemplation, another word for when you think
Concentration, your attention please
Standing ovation, give yourself a hand and squeeze

Would you go for this or that, something thin or something fat
Would you use one hand or the other or just shrug and ask your mother

Concentration, words and listening link
Contemplation, another word for when you think
Concentration, your attention please
Standing ovation, give yourself a hand and squeeze

Clap your hands or cheer out loud, but don't leave your head in the clouds
You can think of what you'd like, could be a scooter or a trike

Concentration, words and listening link
Contemplation, another word for when you think
Concentration, your attention please
Standing ovation, give yourself a hand and squeeze

Can you nod and can you can wink, this is something new, I think
You can trod in place and blink, all at the same time, I think

You're the Greatest in the World

You're the greatest in the world, You're the greatest in the world
You're the greatest in the whole wide world

A friend did something nice for me & showed me smiling is the key
To feeling good together we find on this subject we agree

You're the greatest in the world, You're the greatest in the world
You're the greatest in the whole wide world

Say a kind word to someone, then you'll find out it's more fun
In every little thing we do there's more for me and more for you

You're the greatest in the world, You're the greatest in the world
You're the greatest in the whole wide world

(Instrumental: You can tell your friends and neighbours they're the
greatest in the world!)

When you have a chance to please, sail in fair winds, shoot the breeze
If you like someone tell them so and when you do then you will know

You're the greatest in the world, You're the greatest in the world
You're the greatest in the whole wide world, in the whole wide world..

Forever is Now

I've got a feeling now it's going to be right for us
And when we get there we'll keep going, that's a must
There's a surprise in your eyes when we meet, it's the most, the most
When we get together we'll be the toast of the town

We don't need it, we want, I can see it's going to be a habit
Let's get started living for today forever is now

Forever is now, Forever is now, Forever is now, Forever is now
Forever is Now.....Forever is Now, Right Now
